I can guarantee that Uber has not only increased the safety of drivers in the charleston area, but encouraged more customers to not drink and drive. The taxi service in charleston has been one of the worst I have seen and unreliable. Poor server and poor quality. Talk about background checks, have you even taken a ride in a taxi lately. They are cheats. Driving in circles to increase thier tab with no audit trace to fight. At least with Uber, ever driver has a large background check and had an audit trail of where the car has gone. Uber has given charleston a reliable source that gives passengers the confidence they are in good hands, but the access to have rides shares to all areas of charleston.

YOU WILL BE HURTING A HUGE COMMUNITY HERE THAT RELIES ON SAFE RIDE SHARING.

-Peter

To whom it may concern,

I am deeply troubled by the actions taken by your organization here in freedom-loving South Carolina. As an Uber user, I am secure in using their service. I also support their innovative business model. That's why it troubles me so deeply that a state so open to bringing in businesses would take such an unexpected action. South Carolina is meeting its potential as a free and welcoming place for business to thrive. If you wish to keep it that way, these overbearing regulations need to stop.

Your concerned citizen,
James R. Dotson
Greenville, SC

As and South Carolina tax payer I'm extremely bothered by the fact that the state is trying to deny us a safe, affordable, clean ride home. Stats show that since the inception of Uber in major cities DUI incidents have dramatically dropped. I'm very saddened that the elected leaders are ignoring this in favor of supporting traditional cabs. I have been in a traditional cab plenty of times and felt unsafe. I have been in a traditional cab and watch the drivers drink alcohol. And I have been in traditional cabs with out cash to pay, then forced to pull money from an ATM in a shady part of town to watch my friends get robbed. Shame on you SC for denying us a safe mode of transportation. I guess I voted for the wrong people this past November....

Please get this right and allow us to have what traditional taxis don't!

The government should not control the free market. There is nothing more un-American than that. This is a perfect example of socialism.

Subject: SC needs Uber

Hello,

I'm writing in support of Uber. I would like them to continue operations in South Carolina. I use them in other states all over the US while on vacation or business trips and they are a great, safe, affordable means of transportation. They are also super quick to respond and in my experience the drivers have always been very respectful. Please allow them to stay in SC!!

All the best,
Erin
